 - ii) if the transfer is other than that referred to in clause (i), the price shall be arrived at by taking the average quotations (average of daily high and low) for one week preceding

the date of application with 5 percent variation. Where, however, the shares are being sold by the foreign collaborator or the foreign promoter of the Indian company to the existing promoters in India with the objective of passing management control in favour of the resident promoters the proposal for sale will be considered at a price which may be higher by up to a ceiling of 25 percent over the price arrived at as above,

(b) Where the shares of an Indian company are not listed on stock exchange or are thinly traded,

i) if the consideration payable for the transfer does not exceed Rs.20 lakh per seller per company, at a price mutually agreed to between the seller and the buyer, based on any valuation methodology currently in vogue, on submission of a certificate from the statutory auditors of the Indian company whose shares are proposed to be transferred, regarding the valuation of the shares, and

ii) if the amount of consideration payable for the transfer exceeds Rs.20 lakh per seller per company, at a price arrived at, at the seller's option, in any of the following manner, namely:

A) a price based on earning per share (EPS linked to the Price Earning (P/E) multiple, or a price based on the Net Asset Value (NAV) linked to book value multiple, whichever is higher,

or

B) the prevailing market price in small lots as may be laid down by the Reserve Bank so that the entire shareholding is sold in not less than five trading days through screen based trading system

or

C) where the shares are not listed on any stock exchange, at a price which is lower of the two independent valuations of share, one by statutory auditors of the company and the other by a Chartered Accountant or by a Merchant Banker in Category 1 registered with Securities and Exchange Board of India.

Explanation:

1. A share is considered as thinly traded if the annualized trading turnover in that share, on main stock exchanges in India, during the six calendar months preceding the month in which application is made, is less than 2 percent (by number of shares) of the listed stock.

ii) For the purpose of arriving at Net Asset Value per share, the miscellaneous expenses carried forward, accumulated losses, total outside liabilities, revaluation reserves and capital reserves (except subsidy received in cash) shall be reduced from value of the total assets and the net figure so arrived at shall be divided by the number of equity shares issued and paid up. Alternatively, intangible assets shall be reduced from the equity capital and reserves (excluding revaluation reserves) and the figure so arrived at shall be divided by the number of equity

shares issued and paid up. The NAV so calculated shall be used in conjunction with the average BV multiple of Bombay Stock Exchange National Index during the calendar month immediately preceding the month in which application is made and BV multiple shall be discounted by 40 per cent.

iii) For computing the price based on Earning Per Share, the earning per share as per the latest balance sheet of the company shall be used in conjunction with the average Price Earning Multiple of Bombay Stock Exchange National Index for the calendar month preceding the month in which application is made and Price Earning shall be discounted by 40 per cent.

3. Responsibilities / Obligations of the parties
